

EventBook Report

❖ Dates: 12.02.2024 – 18.02.2024.

❖ Backlog Items:

- Send/Accept invitation
- Send notification on update/delete/join/leave event

❖ User Stories:

- “As an event admin, I want to invite other people to join my event.”
 - (AC): Implemented a button to send invitation to other users from the event page.
- “As a user , I want to have a notification section where I can accept my invitations and see updates on my events.”
 - (AC): Implemented a section with notification. Users can delete notifications or accept invitations from other users.
- “As a user, I want to see the events that I joined”.
 - (AC): In the user’s profile we added the events he joined.

❖ Sprint Review:

- Successfully implemented functionalities for managing invitations and notifications.
- For easy event management, we added the events he joined in the profile , but the user cannot edit or delete them.

❖ Sprint Retrospective:

- We managed to create an intuitive notification system, ensuring users are aware of all the updates for the events they have joined.
